

THE SHEPHERD GROUP

Are you concerned that today's society does not prepare people to face life-threatening situations or make life-saving decisions in a moment of crisis?

Are you the person in your family and groups of friends that always takes on the responsibility of contingency planning and being vigilant while those around you are not paying attention to their surroundings?

If you are that person and want to be intentional in providing for the security and safety of others, this is the place for you. **The Shepherd Group** is our mentorship program. Here we come along beside you in your journey to obtain security, safety, and peace of mind for your family, group, or community. We will help instill in them the principles, habits, and techniques that will serve them throughout their lives.

Here you will find knowledge, instruction, and mentorship to take you step-by-step of not only seeing to the safety of others but empowering them with the capability to successfully face and overcome the threats they might face in the future.

In the Shepherd Group we not only coach you in assimilating the body of content; we teach you proven techniques to empower others with the *power of prudence*. Young children and grandparents alike can learn how to be safer and deal with crises and threats successfully.

Make empowering others with the gift of peace of mind

*Part of **your** legacy.*

Welcome to The Power of Prudence

Live a safer, more prosperous, and more fulfilling life – whether that means achieving your business objectives, protecting your family, or discovering new essential life skills.

The Power of Prudence program provides online events, one-on-one coaching, virtual master classes, and group workshops that will safeguard your family or business, and prepare you to succeed during uncertain times.
